

General Information

Synonym	1,2,3-propanetriol	
Origin	Indonesia	
H.S. code	1520.00.00	
CAS number	56-81-5	
Molecular weight	90-100 g/mole	

Application

Refined glycerine	It is used in the production of different grades of refined glycerine.
Epichlorohydrin	It is used to manufacture epichlorohydrin, which is used to manufacture epoxy resin.
Propanediol	It is used to manufacture 1,3-propanediol.
Polyols	It is used to manufacture polyols, which is used in the production of polyurethane foam.
Cattle feed	It is used as a source of carbohydrates in animal and poultry feed.

Specification

Property	Units	Value
Appearance		Dark color
Glycerol content	%	80 (min)
Water	%	10 (max)
Methanol	%	0.1 (max)
Matter organic non-glycerine	%	2 (max)
Salt	%	7 (max)

Packaging

- 1 @ 22 MT Flexi Bag, 22 MT / 20' FCL
- 80 @ 250 kg HDPE Carboys, 20 MT / 20' FCL
